

Male Glamour and Nude Photo Workshop

It's finally here! By popular demand, ACEBOY MODELS is excited to offer a photography workshop specializing in male glamour and nude photography. This unique photo workshop takes place in a live production studio where you'll work side by side with adult producers and male models. You'll learn the skills necessary to take stunning portrait and nude photography, including lighting, camera settings, working with models and more!

This 2 day workshop is geared toward beginner photographers with aspirations of shooting beautiful male models for commercial gain or just for fun. You'll work behind the scenes in a real studio, learn how to take glamour and nude male photos from professional adult producers and have a great time while doing it. All in beautiful Ft. Lauderdale, Florida...

Day 1 Agenda

12noon - 6pm (fluctuates with season)

Once you arrive at the studio we'll dig right in and talk about everything you need to know about preparing for an adult shoot and there's lots to know to ensure both you and your model are safe, comfortable and legally compliant. Once your model(s) arrives we'll get right down to business and start the first of 2 photo shoot series. You learn secrets of studio lighting,

flattering poses for male models, and much more. Once done with the shoots you'll learn the ins and outs of digital workflow processing and we'll wrap for the day.

Then we'll let you loose on Ft. Lauderdale's amazing night life (but don't party too hard - see Day 2 start time!)

- * Introduction to male nude photography.
- * Finding, selecting and shooting male models safely and legally.
- * Working with models 101.
- * Basic digital techniques (In Studio).
- * Basic digital techniques (On Location).
- * Digital workflow, photoshop editing, naming & storage (Part I)

Day 2 Agenda

8am - 12noon (fluctuates with season)

Yeah, it's early, but you'll thank us when you see the results. Your model(s) and instructor will guide you through the challenges of taking photos on location where you don't have as much control over your environment. Lighting, Weather and even pesky onlookers drooling over your model or asking you about your camera can make a location shoot a real challenge. Learn tips to prepare, control and ultimately take stunning portraits under any circumstances. Usually, this portion of the class takes place on one of Ft. lauderdale's amazing beaches at or around sunrise. Next (after a Starbucks run) we head back to the studio for a shoot debrief and complete part 2 of the digital workflow series where you'll learn how to optimize your images for the web and present your work to potential clients. Booking travel home on day two after 1pm (est) is the best bet.

- * Introduction to finding, selecting, shooting male models safely and legally (Part II).
- * Advanced digital techniques (In Studio)
- * Advanced digital techniques (On Location)
- * Digital workflow, photoshop editing, naming and storage (Part II)
- * Moving to the next level.
